

DR195M Transilluminator - Parts Checklist

Serial Number

This DR195M transilluminator package contains the following items:

Dark Reader DR195M transilluminator (Electrical: 120 VAC, 60 Hz.)

Amber viewing screen

Pair of viewing glasses

Additional glasses and camera filters (if ordered as separate items)

Be sure to read the Safety & Use Instructions in the accompanying Manual

viewing glasses

Use either the viewing glasses or the amber screen to view sample fluorescence.

amber screen

To view the fluorescence, place the amber screen over the sample. Or alternatively, wear the amber glasses. The amber screen can be used as a camera filter.
